

Thanks so very much for doing such a fantastic job with the JJC projector install in such a short time frame! When you work with a company as long as we have with yours, and you have the great working relationship that we have, you can only hope that when we tell you how much we appreciate your efforts that it still holds the same effect as it did over 10 years ago!

I think Larry would agree with me when I say that you make our jobs here at L'Anse Creuse 10 times easier. In particular Scott has become an extremely valuable resource to us this year, so much that when he takes a day off we don't know what to do! LOL

I just cant put into words how much we value our working relationship with CCI, and how much we value Scott!!! not getting phone calls and complaints regarding our vendors on a daily basis is a great thing! The relationships that Scott has built and continues to build with our staff in our buildings...makes the work that CCI does and your reputation through out the District even that much more!!

P.S. I really like that projector mount at the JJC in those classrooms that have hard ceilings....It looks SWEET!

Thanks again my friends!!

Jason
